

RESEARCH + PRACTICE COLLABORATORY

Mapping and Extending Your Network

Use this worksheet to think about your existing networks:

- Where does know-how for co-design live in your network?
- What know-how can you access through your networks?

Form of Know-How	Who in my network has this form of expertise	Who in my network might know someone with this expertise
Deep familiarity with principles and vision of the <i>Framework for K-12 Science Education</i>		
Understanding of "3D" Design for Curriculum and Assessment Tasks		
Strategies for building coherent sequences of instruction that build understanding over time		
Science ideas and practices related to focus area of curriculum work		
Professional development strategies for preparing for implementation of the <i>Framework</i>		
Supporting principal development		
Knowledge of how to navigate the political landscape but hold fast to a clear vision		

**RESEARCH + PRACTICE
COLLABORATORY**

Whose network among my partners do I need to understand better?

How will I find out about the expertise I might access from those people?
